January 21, 2010

Dear Parents and Guardians,

As hard as it is to believe, we at Oak Harbor High School are already looking ahead to the 2010-2011 school year. Registration for next year's classes is a two-part process. In February your student will begin the process by pre-registering for classes he/she is interested in taking. This Spring, your student will complete the registration process by making his/her final class selections. It is our hope that students will leave school in June with as firm a schedule as possible for next year. The pre-registration process is a very important part of choosing classes. Classes available for final registration will be limited to those selected during the pre-registration process. With impending pre-registration in mind, we are offering two opportunities for students and their parents to make informed decisions about course selection.

Registration & Post-High School Planning Parent Meeting
February 2, 2010 6:30 pm Student Union Building

Online pre-registration and registration procedures for current 9th – 11th graders (Classes of 2011-2013) will be reviewed. Grade level break-out sessions regarding post-high school planning will be presented.

Mandatory Advanced Placement Meeting (AP Night)
February 9, 2010 6:30 pm OHHS Gym

This is a **mandatory** meeting for any student intending to register for Advanced Placement classes for the 2010-2011 school year. Advanced Placement classes are appropriate for students who want to pursue rigorous coursework with the possibility of college credit. Information will be reviewed regarding course content, AP exams, summer homework requirements and OHHS AP policies. All students who wish to register for AP classes **must attend** regardless if they have taken AP classes in the past. **Parents are strongly encouraged to attend.**

Thank you,

Oak Harbor High School Counseling Department
