Box 4: Learning Activities: Explain what the student will do to cover the monthly learning goals (Box 3) and materials (Box 2) above. Two examples are below, one for math and another for phonics/reading. If one of them is correct as is, and appropriate to what your child will do, simply copy and paste it into Box 4. Feel free to adjust them according to your planned learning activities in this class.

An example is: Each day the student will complete an English lesson. They will have a new lesson/concept/learning explained, demonstrated/taught. They'll complete practice work to ensure understanding of content. They will have independent practice/homework over those concepts. They will re-do and make corrections. When review is needed, we'll not learn a new concept but take the time needed to re-teach or reinforce needed concepts.

Box 5. Progress Criteria/ Methods of Evaluation: Tell how you will decide if the student is mastering the learning goals you listed in the learning goals section above. Please copy the sentence in red. Delete any evaluation activities your child does not do.

Student monthly progress evaluation is made on the basis of weekly certificated contact, work samples, communications with students, communications with parents, and performance in on-site classes. It is electronically communicated to parents via WINGS. It is our goal that the student will accomplish approximately 10% of the goals of this course each month, September through June. The level of mastery expected is 70% or higher to progress. Methods of evaluation will include but are not limited to those below, under the direction of a certificated teacher:

- * observation and/or correction of daily and/or weekly work and progress
- * daily or weekly discussion of assignments, readings, writings
- * tests, quizzes
- * correction of work done incorrectly
- * portfolio kept of student work, at least weekly
- * standardized testing (iReady, SBAC, ITBS)

NOTE: Evaluation of progress items noted above with an *, should be changed and adjusted to fit the specific age of the child, course being taken, etc.
