

**DENIAL OF STUDENT ACCESS TO INTERNET
BY PARENT OR LEGAL GUARDIAN**

Oak Harbor School District No. 201

[This form is valid for only one school year.]

I understand that Oak Harbor School District uses electronic resources for essential teaching and learning in core subjects and applied skills in relevant and rigorous ways. Students are provided technological learning opportunities in the context of state standards and adopted curricula that mirror use in workplaces and other real-life settings. The district's technology enables staff and students to communicate, learn, share, collaborate, create, solve problems, publish, and manage work.

I understand that Oak Harbor School District staff members select, teach, and reasonably monitor the use of electronic resources to encourage students to use the network resources responsibly. Student failure to abide by the acceptable use policy for the network results in loss of access or other disciplinary or legal actions that may apply.

I understand that all students will be granted access to the Internet unless the student's parent or legal guardian specifically opts to not allow his/her student use of these important educational resources.

I understand that if I choose to deny my student access to electronic resources in the Oak Harbor School District, I must sign this form annually. I understand that students who are denied access by their parent or legal guardian to electronic resources must complete all assigned class work using print resources and non-electronic methods. I agree to provide resources for my student to complete all assigned class work.

(Do not cut this form. Return the whole form to the library.)

Parent or Guardian Denial of Student Use of the Internet

Student's First Name

Student's Last Name

Student Number

Name of School

Grade in School

Teacher (elementary only)

As the parent or legal guardian of the minor student named above, I deny permission for my son or daughter to access the Internet using the Oak Harbor School District's electronic network. I understand that my son or daughter will be required to complete all assigned work using print resources and non-electronic methods.
